

IFRS Immersion Workshop

This eight-day dual-instructor workshop provides a detailed review of all significant technical IFRS requirements. It includes case studies, examples, exercises, coverage of IFRSs, and interactive hands-on participation from the participants. Designed as an extended version of Course 1010: IFRS Overview (4-day course), this eight-day all-inclusive workshop helps participants acquire the tools necessary to understand and apply IFRS and prepare IFRS financial statements. The program includes the latest pronouncements, and participants are brought up-to-date on all topics.

This course is ideal for individuals at all levels within an organization who have a need to know IFRS. In essence, it is an opportunity to transfer a crucial new skill set to those responsible for making accounting decisions and preparing, reviewing or approving IFRS financial statements.

This program answers questions such as:

- What are the current and likely future requirements of IFRS?
- What is the probable impact of adopting such requirements?
- How are IFRS recognition and measurement rules applied?
- What are the requirements for presentation of IFRS financial statements and related disclosures?
- Where can up-to-date information about IFRS be obtained?
- How can complex or unique situations be researched?

OBJECTIVES

Upon completion of this course, participants will be able to:

- Apply IFRS financial statement requirements, including accounting policies and disclosures
- Understand the rules relating to first-time adoption of IFRS
- Implement the IFRS recognition and measurement rules for assets, liabilities, revenues, expenses, gains and losses
- Benefit from networking opportunities with other delegates from a variety of industries
- Increase planning opportunities through awareness of likely future IFRS changes, including prospects for convergence with major national accounting standards

HIGHLIGHTS

- Review of the rationale and objective for IASB standards
- Description and explanation of IFRS technical requirements in clear and simple language
- Use of case studies, exercises, interpretations, and real-world financial statements to illustrate practical application of the standards
- Dual-instructor format, resulting in a high level of attention to individual participants

WHO WILL BENEFIT

- CPAs, including analysts, in industry and practice
