

IFRS Technical Update 2009

This two-day IFRS Technical Update course has been specifically developed to bring experienced preparers and users of IFRS financial statements up-to-date with developments that have occurred or become effective within 12 months. Course content includes coverage of newly effective and newly issued IFRSs and IFRICs, Exposure Drafts and other recent developments. Implementation issues are discussed and clear guidance is provided using practical examples.

This program provides answers to questions such as:

- What are the recent and likely future changes relating to IFRS?
- When must they be applied?
- What are the transitional provisions?
- How do the new requirements differ from current rules?
- What are the financial statement and performance reporting implications?

OBJECTIVES

Upon completion of this course, participants will be able to:

- Build on existing knowledge and be ready for compliance with the changing world of IFRS
- Understand the plethora of recent changes to IFRS requirements
- Learn to apply the latest developments, including those affecting first-time adoption of IFRS
- Network and interact with other experienced IFRS practitioners
- Benefit from real-world illustrations and examples
- Plan ahead for expected future IFRS changes

HIGHLIGHTS

- Description and explanation of changes in IFRS, including implementation requirements and transitional rules
- Use of illustrative IFRS financial statements and worked examples
- All participants receive a comprehensive binder containing copies of the presentation slides, handouts and other course materials

WHO WILL BENEFIT

- CPAs, including analysts, in industry and practice
