commitment to audit quality.

Employee benefit plans audit certificate programs

When a client asks you to bid on an employee benefit plans (EBP) audit engagement, how will your firm differentiate itself from the competition? Have your audit staff earn one or more of the AICPA's EBP audit certificates:

- Intermediate Employee Benefit Plans Audit Certificate
- Advanced Defined Contribution Plans Audit Certificate
- Advanced Defined Benefit Plans Audit Certificate
- Advanced Health and Welfare Plans Audit Certificate

Specialized audits demand specialized understanding. Your staff can take optional learning programs, pass the certificate exam and earn a digital badge they can proudly display online to demonstrate their knowledge of EBP auditing to prospective clients.

The programs are based on the AICPA Competency Framework: Employee Benefit Plan Auditing, addressing the increased scrutiny around these engagements by the Department of Labor.

Distinguish your firm and prove your commitment to audit quality. Discounts available for groups of five or more.

To register your audit staff,
